# Partners in wellbeing

*Last year AUSactive was selected as one of ten industry peak bodies to be part of the Victorian Government's Partners In Wellbeing program. As part of this initiative, Kathleen joined our team as our consultant clinician to help support small businesses and their staff recover from the disruptions that Covid-19 brought to our world.*

*At an organisation level, Kathleen has contributed mental health and wellbeing information to our members via webinars, workshops, newsletter articles and social media posts.*

*At a member level, she has provided free one-on-one counselling and mental health support to both small business owners and their family members and staff as we have navigated our way through the pandemic. As face-to-face learning and interaction returns she will continue to deliver invaluable support and information to our businesses and members. Kathleen's services are fully funded by the Victorian Government and she is available for counselling or to discuss organising a webinar or workshop for your staff. She can be contacted at [partnersinwellbeing@ausactive.org.au](mailto:partnersinwellbeing@ausactive.org.au) or 0456 380 307*
