Preamble

AUSactive is the peak health and fitness industry association representing over 20,000 AUSactive professionals and 3,500 businesses. We exist to empower the industry to engage more Australians in quality health and fitness services.

Our vision is for more Australians to adopt a healthy, active lifestyle. We do this through proactive leadership, engagement, and service excellence. We're here to professionalise exercise.

In pursuit of a professional and accountable health and fitness industry, AUSactive has updated the National Fitness Industry Code of Practice (2021).

Designed for operators in the health and fitness industry, the purpose of the Code is to promote appropriate standards of trading, inspire consumer confidence and enable business operators to conduct services in a professional and ethical manner.

With the support of the Australian Health and Fitness Industry Standards Council and Law Squared, AUSactive took reference from State and Territory Codes of Practice, the Fitness Australia Business Principles and Guidance for Fitness Business Guide (2015), the current Australian Consumer Law and industry consultation to update the Code of Practice. This Code now represents the new standard of business operation in a contemporary Australian health and fitness industry.

Separated into three (3) distinct parts, the National Code of Practice clearly outlines guidance for Standard Business Practice, Consumer Agreements and Terminating a Consumer Agreement.

The Code offers clear guidance and principles that is intended to gel with legislative requirements for business operation.

This Code is administered by the board of AUSactive and while it is a voluntarily Code, it is expected that members of AUSactive will meet the standards set out within it.

1. Objectives

- 1.1 This Code has been developed for the health and fitness industry, to:
 - a) Promote appropriate standards of trading by health and fitness industry business operators.
 - b) Enable business operators in the health and fitness industry to provide and conduct services in an ethical and professional manner, with due care and skill, and with a view to better protecting the interests of consumers; and
 - c) Promote consumer confidence in business services.

2. Application of the Code

- 2.1 This Code applies to suppliers of exercise, yoga and Pilates services in the health and fitness industry.

This Code and the recommendations and procedures are not legal advice and should not be relied on as such. The requirements set out in this Code are additional to the obligations imposed by applicable laws and conduct that complies with this Code will not necessarily ensure you comply with obligations imposed under applicable legislation or the common law.
- 2.3 Suppliers should obtain their own independent advice as to the legal obligations that apply to their particular circumstances.
